## **MUDr. Karel Kočí, CSc. Andrology**

Karel Kočí, MD, PhD has 27 years of medical experience. He worked at the 1<sup>st</sup> clinic of urology Charles University and taught at the division of Urology of the Institute for postgraduate education in medicine. He is board-certified in his specialty, and has studied abroad as well.

For the past 17 years, Dr. Kočí has specialised in andrology, which deals with dysfunction of the male genital system. Dr Kočí has published more than 40 scientific articles, a monograph on ultrasonography and the popular science book on andrology, and has lectured in meetings and congresses in the CR and abroad.

Dr. Kočí founded and developed a series of diagnostic and therapeutic methods in his field. He is a member of Czech urological society (CUS), a constituent member of andrological branch of CUS and a member of European society for human reproduction and embryology.

In his private practice, Dr Kočí treats male infertility, erectile dysfunction, inborn developmental defects, inflammations, injuries and other pathological involvements of the male genitals, including application of state-of-the-art surgical procedures to treat the above.
