Doc. MUDr. Tomáš Trč, Csc.

Orthopedics, adult and child. Bone Traumatology

Dr. Trč graduated from Charles University Medical Faculty in 1981. He subsequently was a member of several orthopaedic clinics, including the Orthopedic clinic at Vinohrady Hospital under professor Čech, where he served as First Assistant. His education includes studies abroad at well-known clinics in Switzerland, Russia, and Great Britain.

Dr. Trč has published numerous scientific papers in Czech and international orthopedic journals, and has participated in numerous Czech and international congresses. His main interests include treatment of arthrosis, joint replacement, arthroscopy, lengthening of bones, and sports traumatology.

Assistant professor Trč is a member of SICOT, ESSKA and ICRS and a member of the editorial board of Endoskopie magazine. Language skills include English, German and Russian.

Currently, Dr. Trč serves as deputy chief of the Orthopedic clinic of Charles University at Motol Hospital in Prague. He also practices in a private sanatorium near Prague, while working as a consultant for several regional orthopedic departments.
