MUDr.Václav Beneš **General Practice/Family Medicine**

Václav Beneš MD has longterm general practice/family medicine experience. Graduated at 1st Medical Faculty Charles University in Prague; he first worked as general practitioner and occupational physician. After reaching the highest specialty degree he was elected as Regional Medical Director. He worked in different international clinics both in the Czech Republic and abroad. Many years he was active as lecturer, tutor and trainer in undergraduate and postgraduate level in the position of Vicechairman of the GP Department.

During the years of restructuring Czech health-care system after 1989 he cooperated as advisor and member of different committees in the Czech Ministry of Health and was appointed as WHO Temporary Regional Advisor for Primary Care.

Dr. Beneš is member of the scientific Czech General Practice Society. Since 1990 he was elected as boardmember and in 2006 his work was appreciated by honor membership. Internationally he is active in the World Organization of Family Doctors (WONCA). He was vice-president of the European WONCA board.

He published scientific articles on health-care organization, family medicine undergraduate education and general practice vocational training.

As co-author he published textbook of general practice and Czech version of International Glossary for Family Practice.
